

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

2 March 1984

NOTE FOR: 

Director, Center for Studies in
Intelligence

STATE

The attached article from The Jerusalem Quarterly by Yehoshafat Harkabi, an Israeli professor who was formerly Chief of Military Intelligence, is the most effective and sophisticated statement of the problems of intelligence support for policymakers that I have seen. It was brought to our attention by Herb Meyer. I believe it would be a natural for reprint in Studies.
